

acuclean-T

Acuclean-T is workstation specially designed for the cleaning of wire honed parts. The complete station contains a counter framework with an integrated basin, the DeCast 600 system for extracting the parts cast in the arbor and a ultrasonic cleaning device. Furthermore it offers enough space to store the compound for casting, the arbors and the required cleaning agents and utensils.

Dimensions (length x width x depth)

200 x 56 x 120 cm
